

Ask the Network – Paranet Network Requests

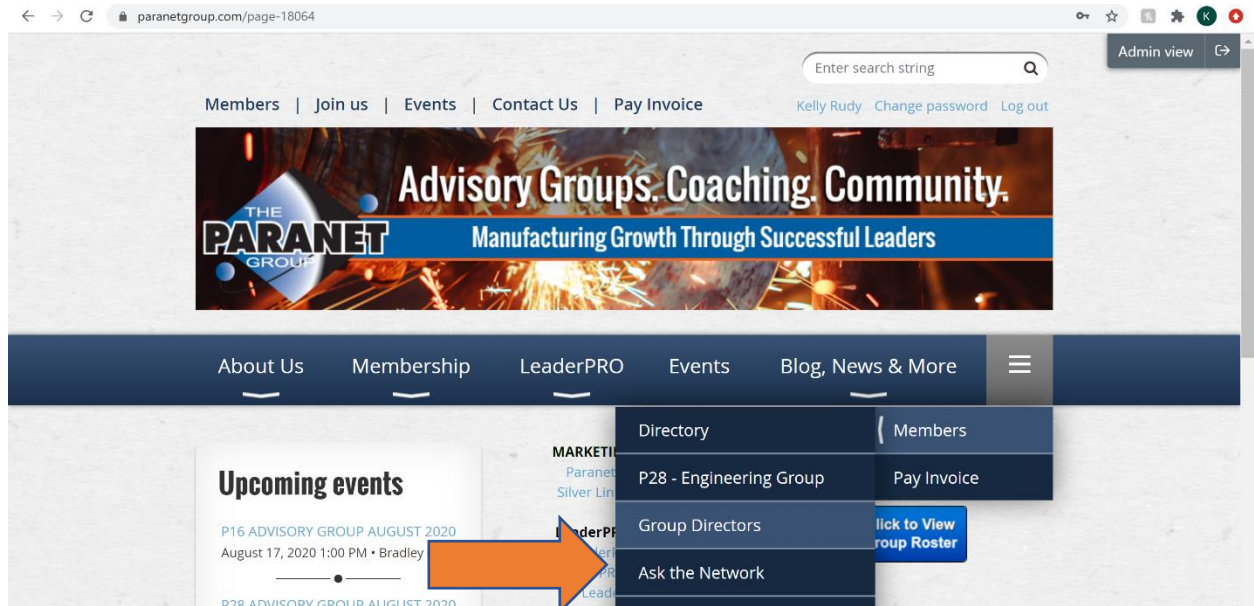

A Paranet Network Request is a valuable benefit of your Paranet Group Membership that allows you to ask the entire membership a question. Responses to these questions are compiled and posted to the Paranet Group Website on a page accessible only by members. To access this page make sure you are logged in. You can do this by pressing the log in button on the top right of the page www.paranetgroup.com :

When the login screen appears use the email we have for you on file and your password. If you do not know what your password is click on “forgot password” and it will send you an email with instructions on how to reset your password to your email on file.

Once you are signed in you can access the member only items. You will notice that an additional icon that looks like three lines has appeared in the navigation bar. If you hover over it the members option will appear in the drop down, click on that and you will see “Ask the Network” Appear. Click on this and it will take you to the Network Request page:

On this page we post responses that come directly into the office. You can also respond to the posts through this page. To view responses, click on the link for the discussion topic you wish to explore.
