

EMERGING TECHNOLOGIES IN MANUFACTURING WAREHOUSE AUTOMATION

The labor shortage has spurred a new perspective and sense of urgency in the use of automation, especially in the warehouse. Discover ways to add to the bottom line by making the warehouse more lean. Join us as we discuss what can be done to capitalize on actionable projects for small to medium manufacturing warehouses.

THE PANELISTS:

HOSTED BY:

**MICHAL-MARIE
TILLOSTON**

Area Sales Manager

Mobile Industrial Robots
(MiR)

**MICHAEL
WOHLWEND**

Supply Chain
Consultant

Alpine Supply Chain

**ERIC
KRAUS**
